

# Recruiting participants (See Piazza)

This research study consists of multiple sessions conducted after equal intervals of time throughout the term. Each interview session will be expected to take 45 - 60 minutes and is mainly about your learning experience. Please find detailed information in the attached recruitment PDF. If you are interested in participating or to learn more, please email Lily Ge ([wanqian.ge@northwestern.edu](mailto:wanqian.ge@northwestern.edu)), and include "visualization design study" in the email subject.

**Note:** Participation is entirely **optional** and **unrelated** to this course. Choosing whether or not to participate will not affect your grade or standing, and I will not know who participates.

See you on Wed!
