

Course goals

By the end of the course, you should expect to be able to:

Understand key visualization techniques and theory.

Implement interactive data visualizations using D3.js.

Design, evaluate, and **critique** visualization designs.

Develop a substantial visualization project.

Topics

“Fundamentals”

Visual Encodings

Perception and Cognition

Color Theory

Task and Interaction

Animation

Storytelling and Narrative

Application domains

Tree & Graph

Time & Multivariate

Interpretability & Explainability

Data Journalism & Map

Uncertainty & Probability
