

Dual axis charts

We can make all kinds of statements with our two data sets if we just tweak the scales a little bit....

Orange steady,
Blue massively increasing.

Blue steady,
Orange increasing.

Both started at the same
level, but Orange increased
far more than Blue.

Both started at the same
level, but Blue increased far
more than Orange.

Both started with the
same increase, then Blue
raced to the top.

Both steady.
