

Prinzessin

Things look **smaller** when they are **further away**, so our brain **compensates** for this, by making things that we know are far away **seem bigger**.

Fuel Economy Standards for Autos

Set by Congress and supplemented by the Transportation Department. In miles per gallon.

Ponzo illusion

Things look **smaller** when they are **further away**, so our brain **compensates** for this, by making things that we know are far away seem bigger.

Scintillating grid illusion

A neural process called lateral inhibition. The intensity at a point in the visual system is not simply the result of a single receptor, but the result of a group of receptors.
