

Group activity: Step 1

For each color, describe them in **natural language** (type-in or write down)

If English is not your native language, please think in your native language and prepare for an English description

e.g., the color of a kind of plant, find a picture of that plant

1	2
3	4

Group activity: Step 2

Exchange your description with 2-5 classmates next to you

Did you all use the same description for the same color? Any similarity and differences?
